

Application No.: 10/826,530  
Docket No.: HT4020USNA

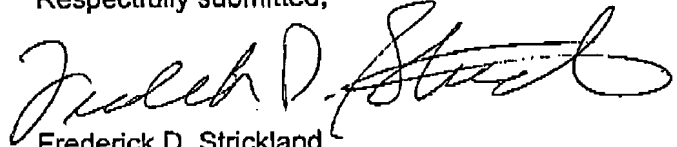

VI. Claims 23-30, drawn to a "process of making papers",  
classified in Class 162, subclass 146.

Applicants respectfully elect with traverse to prosecute the Claims of  
Group I, Claims 1-14.

Groups I, IV and V are classified in the same Class. As such, it is not  
clear how the Claims of Group I can be adequately searched and examined  
without performing the necessary search for the Claims of Groups IV and V.  
The searches involved for those Groups of the Claims are identical or at least  
substantially overlap and would not present an undue burden to the Examiner.

In view of this, Applicant respectfully requests that the restriction  
requirement be withdrawn.

Respectfully submitted,

Frederick D. Strickland  
Attorney for Applicant
